Using the SD Memory Card

Your computer is equipped with an **SD** memory card slot. You can use this slot to transfer data among digital cameras, camcorders, music players, and other audio/video devices.

Before You Use the SD Memory Card

The **SD** memory card slot on your computer supports the following memory cards:

- SD memory card
- SDHC memory card
- MultiMediaCard (MMC)

For the latest information on compatible memory cards, see **Sony Support Information (page 167)** to visit the appropriate support web site.

!

Your computer has been tested and found compatible only with major memory cards available as of September 2008. However, not all memory cards that meet the same specifications as the compatible media are guaranteed of compatibility.

Always insert the correct memory card into the **SD** memory card slot.

SD memory cards with capacity of up to 2 GB and SDHC memory cards with capacity of up to 32 GB have been tested and found compatible with your computer.

The **SD** memory card slot on your computer does not support the high-speed data transfer feature of the SD memory card and the SDHC memory card.

Do not attempt to insert an SD memory card or SD memory card adaptor of a different type into the **SD** memory card slot. An incompatible memory card or memory card adaptor may cause difficulty in removing from the slot and can cause damage to your computer.

Use care when inserting or removing an SD memory card from the **SD** memory card slot. Do not force the SD memory card in or out of the slot.
